## FROM THE FOUNDER PRESIDENT'S DESK

Eliot said: "He will teach that the good which men do lives after them, fructified and multiplied beyond all power of measurement or computation. He will teach that from the seed which he planted....have sprung joy, strength and energy ever fresh, blooming year after year in this garden of learning and flourishing...as time goes on, in all fields of human activity."

Institutions embody our present and enduring connections to one another. They bring our disparate talents and capacities to the pursuit of common purpose. At the same time, they link us to both what has come before and what will follow. They are repositories of values-values that precede, transcend and outlast the self. They challenge us to look beyond the immediate, the instantly gratifying, to think about the bigger picture, the longer run, the larger whole. They remind us that the world is only temporarily ours, that we are stewards entrusted with the past and responsible to the future. We are larger than ourselves and our selfies.

That responsibility is quintessentially the work of Universities-calling upon our shared human heritage to invent a new future- the future that will be created by the hundreds of graduates who leave the campus every year. Our work is about that ongoing commitment-not to a single individual or even one generation or one era- but to a larger world and to the service of the age that is waiting before it.

## FROM THE VICE-CHANCELLOR'S DESK

**Col. Dr. G. Thiruvassagam**  
Vice-Chancellor

Dear colleagues and students,

I am immensely pleased to note that the AMET University is to afloat yet another issue of AMET Waves, a prestigious publication of the University bringing the reminiscence of glorious events taken place in the campus during the last six months. One would concur with me that a publication of this kind of an institution like ours' would always form as a source of information for the future reference and cherishment.

The information along with photographs divulged in this publication would reveal to show the amount of interest and efforts that our Management has taken for making the possibility of presence of galaxy of celebrities, national and international, to the different functions of the University.

The Editor of this Publication deserves all my appreciation and congratulations.
