ABOUT AMET UNIVERSITY

AMET University is India's first maritime University and one and only university from India to be a member of the International Association of Maritime Universities. With quality, commitment, knowledge and excellence as its corner stones. AMET's uncompromising strides of excellence in the field of maritime education and training laced with its capacity to feed the global shipping industry with an unrivalled maritime human resource secured it the status of becoming the first university in India for maritime education, training, research and development activities on the 21st August 2007.

AMET University serves as an ocean of knowledge for over 4000 students pursuing courses ranging from diploma to Doctoral programs through 9 schools and 23 intensive research and training centers for marine and marine related activities. Equipped with an excellent infrastructure for research and development, co curricular and extracurricular activities

BACKGROUND

Scientific and technical writing is one of the prime qualities required for successful researchers. In this digital era, there have been many tools and techniques are available both computer and web based. This proposed workshop would provide interactive sessions for introducing and familiarizing tools and techniques related to scientific and technical writing such as statistical software, tools for online bibliography, software for tables and graphs making, software for plagiarism checking etc.

OBJECTIVES OF THE PROGRAM

- To provide interactive sessions for introducing and familiarizing tools and techniques related to scientific and technical writing such as statistical software, tools for online bibliography, software for tables and graphs making, software for plagiarism checking etc.

WHO CAN ATTEND THE PROGRAM?

- Part time and full time PhD research scholars.
- Young research guides.
- Faculties of Humanities/Social science, Science, Engineering, Medicine and Technology Institutions.
- Post graduate students of all the above disciplines who are aiming to do doctoral research.

TECHNICAL PROGRAMS

Technical Sessions will cover

- Major elements of technical writing
- Structuring of research manuscripts
- Plagiarism issues
- Publication metrics
- Scientific and technical forums
- Peer review process of journals
- Citation index, H index
- Software for bibliography formatting
- Software for plagiarism checking
- Software for statistics, graphs and tables

Key Speakers

Scientist, Professors, researchers from various Universities, institutes and research organizations
