

AMET
DEEMED TO BE UNIVERSITY
(Under Section 3 of UGC Act 1956)

INDIA'S FIRST DEEMED TO BE UNIVERSITY IN MARITIME EDUCATION

Dr.P.SARAVANAN
REGISTRAR

Registrar Proceedings No. /AMET/Physics/2018

Dt.08.09.2018

Dr.Anita R Warriar, Assistant Professor of Physics has informed that the Physics Department is planned to conduct a two days Workshop on Photocatalysis in collaboration with Indian Institute of Information Tech, Design and Manufacturing, Kancheepuram on 24th and 25th September 2018. She has requested to sanction an advance of Rs.35,000/- to incur the expenditure towards the workshop. Her request has been considered and sanctioned an advance of Rs.35,000/- and The Financial Controller is requested to release the advance to Dr.Anita R Warriar.

REGISTRAR

To

Dr.Anita R Warriar
Assistant Professor of Physics Department
AMET University

Copy to:

1. The Director-Administration
2. The Controller of Examinations
3. The Financial Controller
4. The HOD- Physics
5. The Secretary to the Vice-Chancellor
6. The Assistant Registrar (Maintenance)
7. The PRO / Chef

About AMET

AMET which is India's first maritime University, the one and only university from India to be a member of the International Association of Maritime Universities. With quality, commitment, knowledge and excellence as its corner stones. AMET's uncompromising strides of excellence in the field of maritime education and training laced with its capacity to feed the global shipping industry with an unrivalled maritime human resource secured it the status of becoming the first university in India for maritime education, training, research and development activities on the 21st August 2007.

AMET serves as an ocean of knowledge for over 4000 students pursuing courses ranging from B.Sc to Doctoral programs through 9 schools and 23 intensive research and training centers for marine and marine related activities. Equipped with an excellent infrastructure for research and development, cocurricular and extracurricular activities.

About the Department

The Department of Physics, AMET was established in the academic year 2001-02. Physics being an integral part of every scientific innovation, teaching the principles of Physics to engineers is to lay a strong foundation to future technology. The Department offers Physics as allied subject to various branches of B.Sc., and B.E., courses. The curriculum is enriched to expose the students to various theoretical and practical aspects of basic Physics. Students who are to sail and work in the offshore environments are benefited by the knowledge gained. We strive and make them competent in understanding and applying Physics in their respective fields. Presently the department has a team of eight faculty members. The faculty members are well experienced and have an academically sound background with several projects and publications.

Scope

- ❖ Photocatalytic material/nanomaterial growth and assembly techniques, advanced characterization (physical, chemical and biological), modelling, disinfection and depollution of water or air, by heterogeneous photocatalysis
- ❖ Surface functionalization for self-decontamination and photosensitization for solar energy applications
- ❖ Material/nanomaterial growth techniques, advanced characterization, modelling and device fabrication for the production of hydrogen or fuels by photocatalytic and photo-electrochemical water splitting or CO₂ reduction
- ❖ Photocatalytic activity in the visible region of the solar spectrum and improvement of the electronic properties (conductivity and band position engineering)
- ❖ Pilot studies, prototypes and small scale applications of the use of these materials in water and air remediation, water splitting and CO₂ reduction

Topics to be Covered

- ❖ Nanostructured photocatalytic semiconducting materials (e.g. TiO₂, ZnO, Cu_xO, Fe₂O₃, CdS, GaP, ZnS, InS, etc)
 - ❖ The application of photocatalysis for water treatment and disinfection
 - ❖ Self-cleaning/disinfecting surfaces for healthcare applications
 - ❖ Photoelectrolytic and photocatalytic splitting of water to yield H₂
 - ❖ Energy recovery from wastewater by reforming of pollutants to yield H₂
 - ❖ Carbon Dioxide reduction-artificial photosynthesis
 - ❖ Kinetics and modelling
- Who can participate**
PG students, M.Phil., students, research scholars, post doctoral fellows and Faculty Members in disciplines of Materials Science and Physical Sciences.

WORKSHOP ON PHOTOCATALYTIC TECHNOLOGY AND INNOVATION

WPTI-2K18

On 24-25 September 2018

Organized by

Department of Physics

Academy of Maritime Education and Training
Deemed to be University
(under section 3 of UGC act 1956)

135, East Coast Road,
Kanathur, Chennai-603112
in Collaboration with

INDIAN INSTITUTE OF INFORMATION
TECHNOLOGY, DESIGN AND
MANUFACTURING, KANCHEEPURAM

ACADEMY OF MARITIME EDUCATION AND TRAINING

Deemed to be University

Under section 3 of UGC act 1956

Workshop on Photocatalytic Technology and Innovation (WPTI-2K18)

24-25, September 2018

Organized

by

Department of Physics

In collaboration with

Indian Institute of Information Technology, Design and Manufacturing, Kancheepuram

INAUGURATION

Welcome Address

: **Dr. Baskaran R,**
Head, Department of Physics,
AMET Deemed to be University

About Workshop

: **Dr. Anita R Warrior**
Convener

Presidential Address

: **Col Dr. G. Thiruvassagam,**
Vice Chancellor, AMET Deemed to be University

Inaugural Address

: **Prof. Banshidhar Majhi,**
Director, IIITDM, Kancheepuram

Felicitation Address

: **Prof. Sudhir Varadarajan,**
Dean, Design, Innovation & Incubation,
IIITDM, Kancheepuram

Vote of Thanks

: **Dr. Jayachandra Bingi,**
Department of Physics,
IIITDM, Kancheepuram

Date: 24th September
Venue: DNY Hall - II

Time: 10:00 - 10:30 am

Vote of Thanks	: Dr. Jayachandra Bingi, Department of Physics, IIITDM, Kancheepuram

DAY-2:

SESSION-III- Chair-Dr. K. Thanigai Arul, Department of Physics, AMET		
10.00 AM-11.00 AM	Photocatalytic materials for water splitting	Prof. T. Nagarajan (M.S.University, Tirunelveli)
11.15 AM-11.30 AM	High Tea	
11.30 AM-12.30 PM	Photocatalysis by ZnO Nanopencils	Prof. E. Prasad (IITM, Chennai)
12.30 PM-1.30 PM	Photo-catalytic Hydrogen evolution from solvent exfoliated black phosphorus nanosheets	Dr. V. Eswariah (SRM University)
1.30-2.15	Lunch	
SESSION-IV-Chair- Dr. V. Eswariah, SRM University		
2.15 PM -2.45 PM	Photocatalytic properties of Metal oxide nanoparticles	Dr. K. Anandan (AMET, Chennai)
2.45 PM-3.15 PM	Visible light Photocatalysis by β -In ₂ S ₃ and β -In ₂ S ₃ -Ag nanoparticles	Dr. Anita R. Warriar (AMET, Chennai)
3.15-3.30	Tea break	
3.30-4.00	Concluding meet	

Table of Contents

Sr. No.	Invited Talks	Page
1.	Design: The critical link between Technology and Innovation by Prof. Sudhir Varadarajan, Dean-Design, Innovation & Incubation, IIITDM, Kancheepuram	1
2.	Application perspectives of Photocatalysis and Scope for Innovation by Dr. Jayachandra Bingi, IIITDM, Kancheepuram	2
3.	Introduction to Basics of Photocatalysis by Dr. Anita Warriar, AMET, Chennai	3
4.	Novel Materials And Innovative Strategies For Efficient Photocatalysis by Prof. C. Vijayan, IITM, Chennai	4
5.	Photocatalysis in Medicine – Concept of Lung Assist Device by Prof. A. Subramanyam, IITM, Chennai	5
6.	Photocatalytic materials for water splitting by Prof. T. Nagarajan, M.S. University, Tirunelveli	6
7.	Photocatalysis by ZnO Nano-pencil by Prof. E. Prasad, IITM, Chennai	7
8.	Photo-catalytic Hydrogen evolution from solvent exfoliated black phosphorus nanosheets by Prof. V. Eswariah, SRM University	8
9	Photocatalytic properties of metal oxide nanoparticles by Dr. K. Anandan, AMET, Chennai	9
10	Visible light Photocatalysis by β - In_2S_3 and β - In_2S_3 -Ag nanoparticles by Dr. Anita R. Warriar, AMET, Chennai	10

**Design: The critical link between Technology and Innovation by
Prof. Sudhir Varadarajan,**

Dean-Design, Innovation & Incubation,

IIITDM, Kancheepuram

"R&D institutions have a very daunting task of translating scientific breakthroughs into innovations. Over the years, a lot of progress has been made in terms of evolving a suitable R&D process, for example the stage-gate model or the open innovation model. These models largely take an inside-out and a funnel view, i.e., weeds out many bad ideas and promote the few good ideas. The few ideas that survive will need to be mapped to very high value applications or a diverse set of applications to generate commercial value. While scientific research is good for developing new ideas at a part or component level, they are not sufficient to produce new applications or products. New products require a deeper appreciation of the industrial, economic and social context. This can be enhanced by adopting principles of design thinking. R&D Institutions should find a way to blend these two perspectives to produce innovations. In other words, R&D institutions would do well to re-position themselves as Research, Design and Development institutions."

Introduction to Basics of Photocatalysis

Dr. Anita Warriar, AMET, Chennai

Photocatalytic reaction depends on wavelength/energy of the incident photon and the catalyst. Semiconducting materials are used as catalyst which are photoactive and stimulated redox process due to their electronic structure, which is characterized by a filled valence band and a vacant conduction band

When photons interact with semiconductor with energy greater than the bandgap energy of the semiconductor, the valence band electrons are excited to conduction band of the semiconductor. Holes would be left in the valence band of the semiconductor. These holes in the valence band can oxidize donor molecules and react with water molecules to generate hydroxyl radicals (The hydroxyl radicals have strong oxidizing power responsible for the degradation of pollutants). The conduction band electrons react with dissolved oxygen species to form oxidizing ions. These electrons can induce the redox reactions. These holes and electrons could undergo successive oxidation and reduction reactions with any species, which might be adsorbed on the surface of the semiconductor to give the necessary products.

Schematic representation of photocatalytic process in semiconductors

Photocatalysis in Medicine – Concept of Lung Assist Device

Prof A Subrahmanyam

Department of Physics

Indian Institute of Technology Madras, Chennai

Email id:manu@iitm.ac.in

Photocatalysis can split water into hydrogen and oxygen; the efficiency of splitting is very low. A lot of research is concentrated on the generation of hydrogen. The present work is focused on the generation of oxygen. This principle of water splitting to generate oxygen is applied to human blood (which contains a majority of water like content) to see how much oxygen is generated. This principle has been worked out and the proof of concept is shown that photocatalysis is a potential technology for lung assist devices. Results of these experiments have been explained in the present talk.

Photocatalysis by ZnO Nano-pencils
Prof. E. Prasad
Department of Chemistry
Indian Institute of Technology Madras, Chennai
Email id: pre@iitm.ac.in

The talk describes the use of a particular ZnO nanostructure-ZnO "nanopencil" - as a photocatalyst for the degradation of methylene blue under direct sunlight at room temperature. The ZnO nanopencils have been characterized by diffused reflectance spectroscopy, X-ray diffraction analysis, photoluminescence spectroscopy, FT-Raman spectroscopy, X-ray photoelectron spectroscopy, scanning electron microscopy, and transmission electron microscopy. The catalytic performance of the ZnO nanostructure was compared with commercial ZnO and TiO₂ (P25) nanoparticles. The total carbon removal efficiency of the ZnO nanopencils for methylene blue was 95% by 4.5 h.

Photocatalytic properties of metal oxide nanoparticles
Dr. K. Anandan
Assistant Professor, Department of Physics, AMET University,
Chennai – 603 112

Abstract

In recent years, water pollution caused by organic and toxic pollutants has aroused great attention. Many industries like textiles, leather, cosmetics, paper, printing, plastics, etc., use many synthetic dyes to color their products. Thus, effluents from these industries contain various kinds of synthetic dye stuffs. Hence, nanostructured semiconductor metal oxides have been developed as nanophotocatalysts for their ability to produce radicals and decompose most organic pollutants under UV irradiation or sunlight. The challenge of photocatalytic degradation of organic pollutants would be to synthesize an efficient metal oxide photocatalyst. So, various metal oxide nanoparticles synthesized and their photocatalytic properties were comparatively discussed.

Keywords: Pollutants; Metal oxides; Photocatalytic properties

NATIONAL SEMINAR ON
MATHEMATICS A KEY TECHNOLOGY: ENGINEERING, SCIENCE
AND MANAGMENT
September 19, 2018

OBJECTIVE OF THE PROGRAM

- To refresh the faculty members of Engineering and Arts Colleges about Application of Mathematics in Engineering Sciences.
- To acquaint the staff members with Mathematical and Computational techniques used in wide variety of situations.
- To introduce the effective mathematical tools for the solutions of all Engineering Problems

Key Speakers

- **Dr. S.SUNDER,**
Department of Mathematics,
Indian Institute of Technology,(IIT Madras)
Chennai.
- **Dr. D. Datta,**
Bhaba Atomic Research Centre,
Maharashtra.
- **Dr. S. Sangeeta Mishra,**
Department of Electronics& Communication Engineering

The First Session was given by. **Dr.S.Sundar, Department of Mathematics, IIT-Madras** and the Session was started by 11.15 am and illustrated about the *Mathematics A Key Technology; Engineering and Science* and the Introduction about the Chair person was given by Assistant Prof, Department of Mathematics AMET University.

The Vote of thanks was given by Dr.P.Balaganesan , Associate Prof. Department of Mathematics AMET University after distribution of Participation Certificates to the participants.

The Department of Mathematics and AMET Business School conducted a National Seminar on Mathematics A Key Technology; Engineering, Science and Management was conducted on September 19th, 2018 at Library Visual Audio - Hall.

The Inauguration program was started at 9.30 am with Invocation followed by AMET Prayer Song. Prof. L. Rajendran delivered Welcome address to the gathering. The Presidential Address was given by Respected Pro Vice-chancellor (Academic) Prof. K. R. Chidambaram, followed by Inaugural Address was delivered by Dr. S. Sundar, Department of Mathematics, IIT Chennai. To wind up the Inaugural Programme, Vote of Thanks was given by Dr. Annie Sam, AMET Business School. Research Scholars from various University, Part Time and Regular Research Scholars of AMET University have actively participated in the entire Programme.

The First Session was given by. **Dr.S.Sundar, Department of Mathematics, IIT-Madras** and the Session was started by 11.15 am and illustrated about the *Mathematics A Key Technology; Engineering and Science* and the Introduction about the Chair person was given by Assistant Prof, Department of Mathematics AMET University.

The Second Session 's Introduction of Session Chair was introduced by Dr. I.PaulrajJayasimman, Assistant Prof, Department of Mathematics AMET University. The Chairperson **Dr. D. Datta BARAC, Mumbai** illustrated about *Macro Mathematics to Micro Mathematics*.

Session III was started at 2.15 pm with the introduction of the Guest by Dr.L.Rajendran, Professor and Head, Department of Mathematics AMET University. The Session was given by **Dr. Sangeetha Mishra**, Department of Electornics and communication Engineering, Takur College of Engineering & Technology, Mumbai, Illustrated about *Probability Tree/ Logic Tree-Innovative Mathematics (Basic Wavelet Based Time Series Analysis)*.

The Vote of thanks was given by Dr.P.Balaganesan , Associate Prof. Department of Mathematics AMET University after distribution of Participation Certificates to the participants.

NATIONAL SEMINAR ON MATHEMATICAL A KEY TECHNOLOGY: ENGINEERING, SCIENCE AND MANAGEMENT

SCHEDULE OF PRESENTATION

19th September 2018(Wednesday)

TIME	AUTHOR AND PRESENTATION TOPICS
09.30 am to 10.30am	INAUGURAL SESSION
	Technical session- 1
10.30 am to 11.15 am	Dr. S. Sundar, Department of Mathematics, IIT(Madras), Chennai
11.15 am to 11.30 am	Tea break
	Technical session - 2
11.30 am to 12.15pm	Macro mathematics to micro mathematics - Dr. D. Data, BARC, Maharashtra.
	Technical session – 3
12.15 pm to 1.00 pm	Employment Skills- Dr. Jeyanth Jacob, Department of Management studies, Anna University, Chennai.
1.00 pm to 2.00 pm	Lunch break
	Technical session – 4
2.00 pm to 2.45 pm	Probability Tree/Logic Tree-Innovative Mathematics (Basis: Wavelet Based Time Series Analysis) Dr. Sangeeta R. Mishra, Mumbai University.
2.45 pm to 3.15 pm	Valedictory session and Certificate distribution
3.15 pm to 3.30 pm	High Tea

REGISTRATION DETAILS

>> The structure of the registration fee for various types of participants is given below.

Research Scholar/Students:	Rs. 300
Faculty/Industry Persons:	Rs. 500

*The fee will be non-refundable

- Accommodation and food to the Participants will be provided in University.
- The number of participants is limited to 50 only.
- The registration fee should be paid in the form of Demand Draft drawn in favor of "The Registrar, AMET" payable at Karanthur.
- Send the scanned copy of duly filled registration forms to the coordinators by post / e-mail on or before

09.09.2018

APPLICATIONS MUST BE SENT TO :

Dr. L. Rajendran,

Report on One-Day National Seminar on Imparting Communication and Soft Skills

29th October 2018

Submitted to

The Registrar
AMET University
Kanathur, Chennai-112.

Submitted by

Dr. Z. Justin
Associate Professor and Head
Department of English
AMET University
Kanathur, Chennai-112.

The Department of English conducted National Seminar on 29th September 2018 at AMET University, DNV Hall-2. The event was started at 9.30AM with invocation. Dr. Z. Justin, Associate and HOD/English Department welcomed the dignitaries on and off the dais and gave brief introduction to the relevance of the topic and theme of the one day National Seminar. Col. Dr. G. Thiruvassagam, Vice-Chancellor, AMET gave inaugural address. He stressed the importance of imparting communication skills to Marine students. He also advised the Department of English to take initiative to conduct Faculty Development Programmes on Communication and Soft skills to enhance AMET faculty members to do effective class- room teaching. All the resource persons were felicitated with the books titled Thirukural English translation by Col. Dr. G. Thiruvassagam, Vice-Chancellor, AMET.

The first session of the seminar started at 10.00 am with the presentation delivered by Dr. Shreya Battacharji, Head and Associate Professor, Central University of Jharkand, Ranchi. She gave an over view of Imparting Communication and Soft skills. She illustrated with interesting examples, incidents and events. It was very interesting and interactive. The second session started at 11.30 am presentation made by Dr. B. Cauveri, Associate Professor, SRMIST Chennai. She delivered her talk on Reading and Writing. She got everyone's attention during her

presentation. She used handouts and power points to make her presentation more effective. She delved on all important techniques of teaching Reading and Writing. The third session started with the presentation by Dr. Kirankumar Nittali, Co-ordinator & Assistant Professor, Acharya Banglore B School, Bangalore. He used different techniques to make his presentation on Listening and Speaking effective and interesting. The final session was conducted by Dr. David Wessley, Assistant Professor, Madras Christian College, Chennai. He delivered his discussion on Soft Skills through Theatre. He used theatrical performance involving many participants to make his presentation effective. He was applauded for his performance throughout the presentation. The valedictory Function was arranged to distribute certificates to the participants. Dr. T. Sasilatha, Professor and Dean, Dept. of EEE & Dean Academic, AMET distributed the certificates. Mr. K. Manigandan, Assistant Professor, Dept. of English delivered the vote of thanks and the Seminar came to end at 3.45 pm with the national song.

AMET

AMET deemed to be University (Under Sec 3 of UGC Act, 1956) is the first university in the field of Maritime Education in India. It has major Maritime verticals like Marine Engineering, Nautical Science, Naval Architecture & Offshore Engineering, Harbor & Ocean Engineering, Petroleum Engineering, Marine Electrical & Electronics Engineering, Marine Bio-Tech and Food processing Technology. In tune with these, the University also offers Maritime MBA & BBA Programs and B.Com (Logistics & Computer Applications) with the aim of grooming students who are instantly employable in Maritime jobs around the World.

About Department of Food Processing Technology

The Department of Food Processing Technology at AMET Deemed to be University is one of the well growing departments with support of University. The main objective of the department is to create trained and skilled human resources to cater to the needs of the rapidly growing food processing sector. The department was started at 2016 and enlightening the student on skill based and theory based in the field of Food Processing Technology. The department is currently offering Ph. D. programme on food processing technology.

Mission of the department

1. To establish itself as the leader in human resource development for supporting the food processing sector.
2. To provide knowledge and skills for better preservation, processing and value addition to agro-products, with the aim of supporting the producers.
3. To promote research and development for product and process and assurance of high level of hygiene and safety of processed foods.
4. To promote food safety laws and regulations for supporting a competitive, modern and safe food market for the consumers.

ENTS AND DESCRIPTION

FOOD QUIZ:

Students and research scholars can participate. Participation should be in mode of team and each team should contain participant of two. Level I and level II will be conducted. Sorting of team will be done on level I. The quiz will be purely based on food science, food technology and food engineering.

FOOD ORATORICAL:

Candidates has to register prior for Food Oratorical. For each registered candidates, 20 minutes will be provided and she/he has to present on the topic related to food and its management. The topic will be provided on the spot (lot system) and 2 minutes will be provided for preparation. Based on final presentation and content, prizes will be distributed

Who can participate?

Students and researchers related to streams of Food and Agricultural processing, Food Processing Technology, Dairy Technology, Food and Nutrition, Nutrition and Dietetics, Bakery and Confectionary, Food Safety Management and Food Microbiology.

EVENT REPORT -WORLD FOOD DAY CELEBRATION

A guest lecture was organized by Department of Food Processing Technology at Academy of Maritime Education and Training on October 16th of 2019 and entitled as **FUNCTIONAL FOODS AND NUTRACEUTICALS – AN EMPHASIZE ON GLOBAL TRENDS**. Food and Agriculture Organization celebrates this day as World Food day to commemorate the founding of the organization in 1945. The world food day was celebrated each year with a theme and moto on creating worldwide awareness on food and food safety and moving towards zero hunger. The celebration was started with Inauguration.

The inauguration with Invocation was started by 10:00 AM. The Session begins with welcome address of by Er. K. Sasi Praba Assistant Professor and Head (i/c), Department of Food Processing Technology, AMET. The inaugural address was delivered by Col. Dr. G. Thiruvasagam, Vice Chancellor, AMET University. Dr.S. Prem Mathi Maran MD & CEO of Clean Green Biosystems addressed the chief guest note and delivered the scope of Functional Food processing and the current scenario of food processing technology. Following the chief guest address, the lecture was delivered by Dr.S. Prem Mathi Maran MD & CEO of Clean Green Biosystems.

Technical lecture was followed with Technical session of two events namely Food Quiz (Round I, Round II and III) and Food Oratorical. The prize distribution for the winners of various events was followed with the event's vote of thanks by Mr. J. Suresh Kumar, Assistant Professor, Department of Food Processing Technology, AMET - Deemed to be University.

A Report of workshop on Implementation of Outcome Based Education for NBA Accreditation Process on 09th March 2019

Organized by AMET Deemed to be University

A one-day Workshop on “Implementation of Outcome Based Education” organized by AMET Deemed to be University was held on 09th March 2019 at Shri Janakiraman Auditorium, AMET campus where all the Faculty members were present.

The main objective of the workshop is:

- To have a gander at present educational framework and to give the quality and quantity output with the help of some educational module's structures.
- To understand the different initiatives taken by the Government of India for Quality Assurance in Technical and Higher Education.
- To provide knowledge and skill on the latest outcome-based systems of NBA/NAAC and conduct Self-Assessment.
- To interpret the requirements of NBA/NAAC Accreditation Criteria and define PEOs/ POs and Evaluation Guidelines.
- To Understand Outcome Based education & Accreditation.

Dr. S. Baskar, Professor & Head, Department of EEE, Thiagarajar College of Engineering, Madurai was invited by the University as speaker for this workshop.

The event started on 9th March 2019 at 9.30 a.m. with an overwhelmingly warm welcome address delivered by Dr.T. Sasilatha, Dean- EEE & Dean- Academic.

Dr. S. Baskar, Professor & Head, Department of EEE, Thiagarajar College of Engineering, Madurai conducted the workshop with power point presentation. He discussed the importance about the issues on Academic Quality Work, Components of OBE, Program Educational Objectives (PEO), Program and Course Outcome, Mapping between POs to PEOs, Mapping of COs to Pos, Process of OBE, Continuous Quality Improvement, and Bloom's Taxonomy & Order of Learning, Objectives of Accreditation and its Criteria. He instructed the respective departmental Committee to take necessary steps to write Program Educational Objectives (PEO), Program Outcome (PO), Course Outcome (CO), and PO to PEO, Course outcome to PO.

Dr. S. Baskar elaborated on the use of Bloom's Taxonomy of cognitive levels while defining course outcomes. He also discussed the guidelines for deciding the strength of mapping between Course Outcomes and Program Specific Outcomes. During the post-lunch session, Prof S. Baskar explained Course Planning methodology in order to include use of new pedagogical techniques such as Problem Based Learning, Collaborative Learning, and Case Based Learning.

He also discussed the use of MOOCs and other internet resources in order to make class room instruction more effective. The workshop was attended by 169 faculty participants from all departments. Participants took active part during the exercises and deliberated upon their respective PSOs, Course Outcomes and Course Planning for the new semester in the light of the guidelines discussed during the sessions. This initiative was undertaken to give a boost to quality improvement initiative at Institute level.

Some of the photographs attached:

The workshop was concluded with feedback session and vote of thanks by Dr. Jayaprakashvel, IQAC Co-ordinator.

National Level Science Day Celebration 2019

28-02-2019

9.30 am to 12.00 pm

National Science Day is celebrated every year in India on the 28th February to provide the respect to the discovery of Raman Effect by the Indian physicist Sir Chandrasekhara Venkata Raman was honored by with Nobel Prize in 1930.

The Department of Marine Biotechnology is conducting National Level Seminar on Modern Science for School students" on 28-02-2019 as a part of national science day celebration. The seminar will have plenary lecture by renowned scientist, Two Expert Lecture on the theme of the Seminar. The following events will be organized for the school students and winners will be honored with prizes.

EVENTS

- ▶ Essay Writing
- ▶ Quiz
- ▶ Elocution

Theme for all the above events is "Science for the People and the People for Science." School students are invited to participate in the above event.

- * No registration fee for participation
- * Certificate will be issued to all Participants

Kindly register your names on or before 24-02-2019 by sending an email to jayaprakashvel.m@ametuiv.ac.in

DEPARTMENT OF MARINE BIOTECHNOLOGY
REPORT ON NATIONAL SCIENCE DAY CELEBRATION

Venue: DNV Hall II

Date: 28 February 2019

INTRODUCTION

National Science Day is celebrated across India on February 28. Famous Indian scientist Sir Chandrasekhara Venkata Raman or CV Raman discovered the Raman Effect on this day in 1928. For his discovery, Sir CV Raman was awarded the Nobel Prize in Physics in 1930. In honour of this discovery and as a mark of tribute to the scientist, National Science Day was marked for the first time on February 28, 1987. For the past 32 years, every 28 February has been celebrated as a remembrance of CV Raman's contribution to science and the Indian scientific community. In order to that every year Department of Marine Biotechnology, AMET organizes the National Science day Programme among the nearby, Schools and Colleges along with students of AMET Deemed to University.

PROGRAMME

- National Science day was organized by the Department of Marine Biotechnology, AMET on 28th February on 2019.
- Totally 50 students were participated from the Government Higher Secondary School, Kovalam.
- The programme was organized at DNV hall II from 9.00 am to 01.00 pm
- **Dr. S. Balasubramaniam**, Professor, Department of Inorganic Chemistry, University of Madras, was the guest and the honour of function.
- The celebration was started with Tamil Thai Valzthu, followed by AMET prayer song.
- **Dr. M. Jayaprakashvel**, Associate professor and Head of the Department of Marine Biotechnology and the Convener of the Programme has given the welcome address to all the dignitaries, faculty members and the school students.
- **Dr. P. Saravanan**, Registrar, AMET in his Presidential address spoke about the importance of National Science day and also greeted the honored the chief guest with a book.
- The registrar and the chief guest **Dr. Balasubramaniam** congratulate and presented the gift to the prize winners of the various writing, oratory and quiz competitions.
- Certificates were distributed to all the participants.
- **Dr. S. Balasubramaniam** delivered his scientific lecture on " Foldscope and Interactive period table"

- **Dr. K. Altaff**, Professor, Department of marine Biotechnology delivered his speech on the importance and awareness of Science to the students
- The organizing secretary **Dr. N. Srikumaran**, Assistant Professor, Dept of Marine Biotechnology delivered his vote of thanks and thanked all who supported to the event for smooth conduct.
- Finally, the program is ended with the National Anthem.
- The Technical coordinator **Dr. W. Sylvester Fredrick**, Assistant Professor, Dept of Marine Biotechnology arranged travel facility.

The Department is thankful to the University for Encouragements and financial assistance.
