Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Synchronous & Asynchronous

Brief describe the provision in LMS to be used by HEI :-

• The LMS platform is easily navigable by the students and is quite adaptive. • The LMS platform comes in both android and iOS versions in addition to the desktop version. • Accessibility across Devices and Mobile Learning: Our Learning Management System (LMS) is designed with a focus on accessibility and flexibility, ensuring that learning can happen anytime, anywhere. • We have a user-friendly LMS platform built with a UI which can be customized by each faculty based on the course requirements. • Video conferencing and live chat facilities are integrated with the LMS which helps to deliver Video lectures & other student engagement activities. • The platform is being hosted on AWS Cloud in India and has 1Gbps of Internet bandwidth that can be increased as per future requirements. • The LMS platform has been built with capacities to include graphical exercises, audio-video exercises, AV tutorials and case studies across various formats. <https://lms.auol.in/> • Several Live conferencing systems are integrated into the LMS platform through API's. Live sessions will be conducted using Google Meet, ZOOM or Microsoft Teams which are integrated with the platform. The LMS platform has been enabled with its own chat engine for a faculty/student discussion. The learning platform has the following provisions integrated. - Blogs - Discussion forums for students - Feedback module - Faculty chat - Survey module - Web linkage • LMS supports mobile learning and promotes a flexible learning environment where students can learn as self-paced and in a very convenient time and manner. Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available)

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :- <https://lms.auol.in/>

<p>Assessment mechanism</p>	<p>Examination support- formative and summative Indicative terms of reference: i. Online question bank management, paper setting, valuations ii. Online student registrations and exam scheduling iii. Online generation of grades based on continuous evaluation iv. Learner authentication v. AI Powered Remote Proctored Online assessment engine has been integrated within the LMS platform Our LMS platform supports various question types: - Audio-video questions - Comprehension type questions - MCQ - Matching answers - Numerical and calculative questions - Subjective essay type - Short answers type - True-false https://lms.auol.in/course/view.php?id=240#section-9 The LMS platform supports online submission and grading of assignments. https://lms.auol.in/mod/assign/view.php?id=1713&forceview=1</p>
<p>Identified technological interface and interoperability</p>	<p>Web Portal and Mobile App (android and ios) are the interface for learners. The application provides user state of art features of technological interface and interoperability. • Portal URL*: https://portal.auol.in Student Login ID for Portal Student ID: saket.patil@teamlease.com Password: saket.test</p>
<p>Learner's Authentication Requirements</p>	<p>The learner gets unique login credentials based on their personal email and linked contact number and shall use the LMS through the protected login only. A non- learner cannot access the LMS at any given point of time as the system does not permit them to login without proper credentials. - The solution runs on HTTPS servers and are behind firewalls - The IP address of each learner is tracked and logged - The entire footprint of the learner is tracked and stored Student Login ID for LMS Student ID: saket.patil@teamlease.com Password: saket.test</p>
<p>Learner Registration - through a web application</p>	<p>The LMS provides a streamlined user registration process and allows for detailed user profiling. Each user is assigned a personalized dashboard, which displays relevant information and resources based on their profile and learning needs. This personalization enhances the user experience and facilitates more effective learning.</p>
<p>Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting</p>	<p>We have provided the following features on the learning platform. - Interactive videos - Gamification - Collaborative group projects - Facility to track learner progress using our dashboards https://lms.auol.in/course/view.php?id=240#section-11 Peer-group interactions are available in the platform - The LMS platform is linked to social media like Linked-in and FB. Wherein students can add their social media profiles and share their achievements. - The faculty members can divide the classes into smaller cohorts and conduct breakout room sessions with them individually. https://lms.auol.in/course/view.php?id=240 - Customized dashboards are enabled for different stakeholders: • Student dashboard • Faculty Dashboard • University leadership dashboard https://lms.auol.in/course/view.php?id=240</p>
<p>Payment Gateway –using Digital Payment system</p>	<p>By integrating a secure and efficient payment gateway, the LMS ensures that financial transactions are handled smoothly and securely, providing convenience for users and administrators alike.</p>
<p>Tracking the delivery of a Course or programme</p>	<p>Program Delivery The programme delivery is effectively done through the predefined academic Calendar and the flow of events. It is ensured through the LMS that the academic modules like SLM, A/V Lectures, and PCP Live Sessions are executed. Regular assessments are also enabled as per the exam schedule and eligibility criteria for the batch and the running semesters. Learners progression Learners can go to LMS and click on Activity completion to track his progress. The faculties can monitor the progression of learners with respect to the subject and the programme. Reports are generated on the learner attendance, activity completion, Quiz performance, success rate in term exams with respect to pass/fail in an automated system.</p>

Technical Know-how or Skills Requirements

The LMS is very much user friendly and the learners can navigate easily through the student portal and Mobile phones with basic internet connections. Also the Student Demo Videos are created and shared with all the learners while sending learners credentials by mail. The university conducts orientation before the start of the session and runs periodical " Know your LMS " training sessions to the students to bring them to complete ease towards learning and assessments.

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

The university has set up the dedicated ICT Facilities for effective implementation and delivery of online programmes. The IT infrastructure is modern, scalable and of the state of the art technology. The ICT facilities are built to ensure the following: 1. A learner authentication - integrated with Aadhaar or other government recognised identity for Indian learners and Passport for foreign learners; 2. Learner registration - through a web application with supporting documents; 3. Payment gateway – using Digital Payment system; 4. Learning management System - which tracks the delivery of Programme, Learner's engagement, assessment, results, and reporting supported by analytical tools that can help the teachers to extract and use the relevant reports.

Examination Centre

Srno	It is certified that all the activities .	Name of Centre	Address of Centre / City/ Pin Code/ State	Briefly write on the methods and steps to be adopted for conduct of examination to ensure security, transparency & credibility of examination	Whether Examination centre fulfills all the requirement mentioned in Annexure II	A) Proposed Examination Centre for term end examinatio for ODL programme for Upcoming Academic Years		
1	Yes	Centre for Online and Distance Education., AMET	135 East Coast Road, Kanathur-Chennai-603112-Tamil Nadu	Ensuring online examinations remain impartial and transparent, an e-assessment environment's foundation is authentication, which permits a student to safely access their assessment process while protecting confidentiality and guaranteeing legitimate identity. The authentication procedure is given below: • Login Authentication via OTP for the registered students • Background Check (The application allows the student to start the test only if the camera, microphone, s/w version and network are compatible with the Proctored Online Examination Platform) • Face Verification & ID card verification by the proctor • Verification of the surroundings of the student by the proctor to avoid any availability of suspicious objects or activity. The first layer of anti-cheating measures asks students to click their picture, furnish an identity proof and share registration details. The proctors, available round the clock, verify the photo IDs against registration details to attest authenticity of students. Furthermore, the authentication process allows only genuine students to appear for the exam, drastically reducing the probability of a fake identity. The integrity of the e-assessment is further safeguarded by lockdown application, which prevents electronic corruption and a student obtaining an unfair advantage. This feature locks the student in an e-assessment environment and blocks access to any other website during the exam and prevents access to multiple browser tabs. Live Proctoring has a human invigilator supervising the exam remotely via webcam. It comes with the functionality of pausing, resuming, or halting the test in real-time if deemed necessary. The proctor can communicate with the students through a chat window if they wish to clarify any undesired activity. The integrity of the e-assessment is further safeguarded by lockdown application of the secured browser, which prevents a student obtaining an unfair advantage. This feature locks the student in an e-assessment environment and blocks access to any other website during the exam and prevents access to multiple browser tabs. The confidentiality of the questionnaire is of the utmost significance in conducting online examination system demo and exams. Any misuse of content compromises the exams' standards and results in postponing or re-test. This problem is efficiently addressed in online examination system software. Questions can be randomized in a secure environment, and the exam content is stored in a database that can only be accessed by exam authorities.
