Details of the Information and Communication Technology facilities available for conduct of examination

With regard to the Online Programmes, Academy of Maritime Education and Training (AMET) Deemed to be University has admitted 67 students for the Online Programmes, that is, 51 MBA students and 16 BBA students.

The online examination will be conducted using “Video Proctoring Mode” with the help of the software package developed by AMET to conduct the online examination.

The students will be monitored to check whether they write the examination in the genuine manner without using any incriminating materials or by using any AI technology for copying during the examination.

AI Powered Remote Proctored Online assessment engine has been integrated within the LMS platform. The software uses algorithms to create unique question paper for each student. Marks and grades can be set for the questions and sections

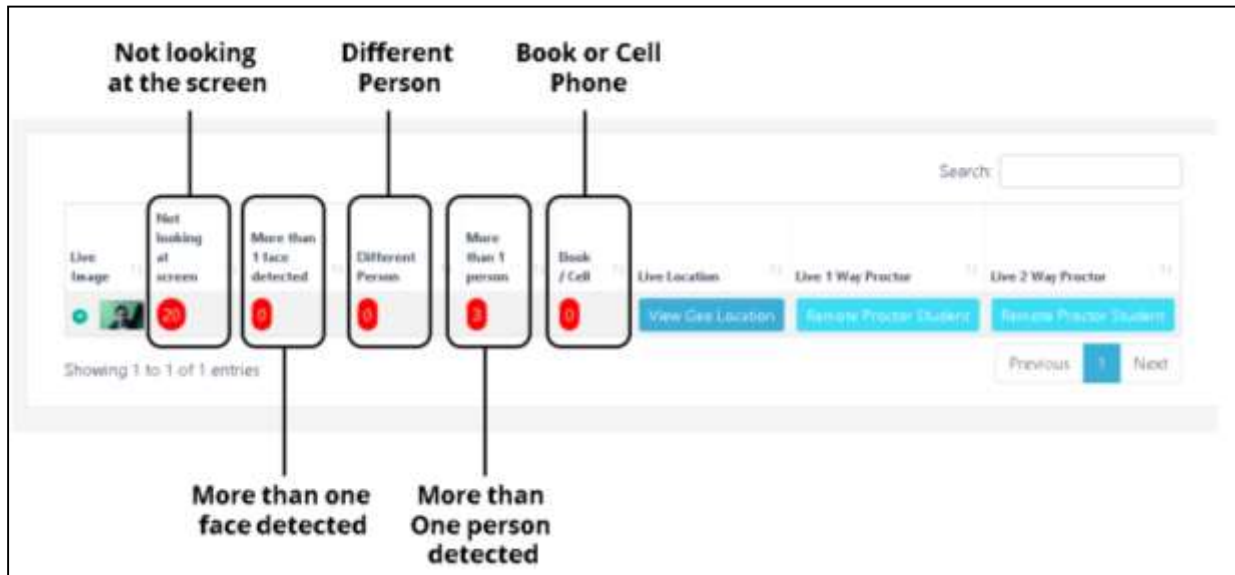

- LMS platform has its own communication engine. Student registration and exam scheduling can be done through the LMS
- Grades and marks for continuous assessments can be automatically generated by the system. Various types of questions – subjective, objective and audio-visual types can be handled by the system
- Learner authentication is done in two steps
 - The AI engine does a face matching for the student
 - A manual proctor further authenticates him
 - In future, we have provisions to have biometric authentication too

Proctored examination methodology.

Examination support- formative and summative Indicative terms of reference:

- Online question bank management, paper setting, valuations
- Online student registrations and exam scheduling
- Online generation of grades based on continuous evaluation
- Learner authentication
